

SUMMARY:Stunning truth is physical vacuum world is proved to be **almighty one !!!**.
Logic theorem proves realizing **contradiction**(simultaneous realization of A and not A)
enabling **everything true(realization)**,which is justly almighty.**Vacuum polarization reaction** is
creation(annihilation)from(into)**nothing**,which is proved **contradiction**.As you could see
that **creating something from nothing itself is out of normal common sense**(contradiction).

[0] : The Universal Common Recognition of mankind="Logic" tells us truth.

- (1)In every time and every where at now world,none could be without finding
dispute among peoples.Till when would man have been in such unhappy chaos ?.
A possible interpretation may be a lack of **absolute universal and common
recognition** on truth of this world.**Who really made this universe ? and
could God do it ?.**The answer is entirely yes !,that's all right !!.
- (2)It's a supremely awful matter,but awfully simple one in **the standard science**.
Followings are elementary introduction and simultaneously fundamental and
awful conclusions.

[1] : Outline of "logic" and "matter and vacuum science the basis".

- (1)Logic is a tool for judging what are **true(1)** and **false(0)**,or **proof theory** for proposition
(a sentence which can be judged true or false).
Logic is a supreme science which reveals what are false and true.
- (2)A true is **a physical realization** which can(could) be **observed** by all of us.
That is,to see is to believe. A false is **negation** of true and true is negation
of false.Logic is to say a upside down **duality** of true and false.

☞ : Truth and false are upside down for each other.So **you could derive truth only
by turning false**. Below is the **logical principle to turn**.

Therefore,above all,you must survey it
false or true at 1st !!!.

A recommended skill to derive better result
is to flexibly turn problem the concerned.

day vs night	order vs disorder	devotion vs Afrocentrism	matter vs vacuum
light vs dark	good vs bad	righteous vs bulling	lasting vs perish
life vs death	true vs false	equality vs supremacism

(3) **matter science** the very coarse introduction on Quantum Mechanics(\equiv QM).

QM is supreme dynamics of **micro matter world** of **vacuum field(VF) with quantum particles(qp)**={elementary particle,atom,molecule}. Very very coarsely to tell,VF is flat averaged sea surface(full of everything) and qp(something burstings from sea surface) are the traveling wave($\psi(x)$) with **energy**=E and momentum=p,charge,..(**physical variables**).

(a) **supremely hot physical vacuum is full of everything**: $0=+1-1+2-2+3-3+4-4+\dots$

You could see nothing(**vacuum**=0)could realize anything at all in natural numbers set.

That is ,VF is full of symmetric **matter** and **anti-matter** as $0=+a-a$ (**physical variables**),

☞ : In our common sense,vacuum is nothing,while the reality is entirely upside down !!

(b) **QM**=qp dynamics of traveling **Quantum Wave(QW)**($\psi(x)$) with **energy**,....

Wave is function of{time=t,space=x} and {angular frequency= $\omega=2\pi f$,wave length= $k=2\pi/\lambda$ }.

Then Plank & De Broglie **Quantization Principle** $\rightarrow \{ \omega = E/\hbar ; k = p/\hbar \}$ yields $QW = \psi$, which satisfy Schrodinger Equation(1926) the basic dynamics of QM<see APPENDIX_4>.

qp position variable by QW is probabilistic due to randomness of hot chaotic VF.

(c) **QM** is ruled by energy,.. exchanging in perpetual **qp's collisions** at time & space spot=x.

It is called **elementary interaction**(=force)ruled by **General Gauge Principle**.

(d) **Conclusion**:Both Quantization and Gauge Principles build Quantum Theory !!.

☞ : Matter has positive energy $E=+mc^2$,while VF is negative(**gravity field**)to cancell it.

[2] : "Contradiction" as a God destruction and also a God creation .

(1)**Contradiction never be realized in "our matter world"**.

An old China tale explains concrete details of contradiction(logic term).Contradiction is defined as simultaneous realization of true and false.Yes,it's a entirely a humbug which never be realized in our matter world.True must be a realization,while false the negation of true must be non-realization.

A weapon merchant were repeating "this spear can penetrate any shield,and that shield can protect any spears".Then a passerger asked the merchant."What would happen when this spear hits that shield ?". The merchant say ".....".

It's an exposing of lie and is fail of merchant.It's a bankrupt in an order.

Proposition "A"="this spear can penetrate that shield".

(2) **Realization of contradiction can realize anything at all.**

This is a strict proof of logic. The strict proof¹⁾ needs knowledge on logic,

The assumption that "contradiction is true(realizable)" is absolutely wrong, it is absolute forcing injustice, as the consequence, some is true and other is false is against equality in logic. Thereby, forcing false into true is to cause everything are all true.

so you can confirm it at there, so here is a coarse story for amateurs. Conclusionally to tell, realizing anything at all is entirely nothing (causing disorder (trust destruction, theory destruction), or vacuum).

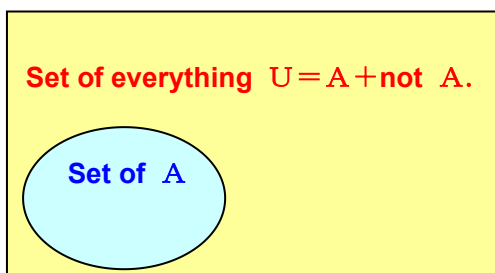

(a) **A very coarse evidence:**

As was showed in (1), contradiction of seeing double image of **A** and **not A** can not be realizable in this our material world. Then the **valid reciprocal-proposition** becomes,

*If contradiction was realized, those are **not visible material world**.*
Consequently, those are something **soft** (lie .error), or non-material world = **vacuum world**.

Then you could claim as for vacuum ,that ,a non-observing is non-believable.

(b) **a simuletaneous realization of A and (not A) is everything in set theory.**

(c) **An analogy evidence:**

$$0 = +1 - 1 + 2 - 2 + 3 - 3 + 4 - 4 + \dots$$

You could see nothing (=0) could realize anything at all in natural numbers set.

It could be generalized full "real numbers" of set $\{0 = +a - a | a \text{ is real number}\}$.

Conclusionally to tell, our vacuum world of empty space is just such structure of

$\{0 = +a - a \parallel +a \text{ is any matter, while } -a \text{ is the anti(negative)-matter}\}$.

(3) **The contradictionness of real number zero : "0 = 1/∞".**

People has been believing zero is entirely nothing. But actuality is not so simple.

You can't tell **the maximum number = M** in natural number set $\{0, 1, 2, 3, \dots, M, \dots\}$.

Because $M < M+1 = M'$ is also natural number. Then you know minimum number in

set $= \{1, 1/2, 1/3, \dots, 1/M, \dots\} = 0^*$ is provable. However, $0^* = 1/M$, so 0* must be indefinite due to that of M. **None can tell definite on something indefinite !!.**

That is, real number zero is nothing and non nothing, something contradictory !!

(4) **Geometrical size of "elementary particle" is "zero" in the standard theory.**

Any inconvenience could not have been found in so called the gauge theory by experimental and theoretical. Then what is real appearance of elementary particle ? It's analogical with a **bubble** created from nothing to burst to nothing.

Their life time is also "0*", however they are reincarnated instantly at other space. Thus their real appearance is not such a very small billiard ball. In micro world, they instantly migrate discontinuously from space dot to other dots randomly. Their size is 0, so any kind of them can be at a 0 size space at a time. This fact can solve the mystery of the two-slit diffraction problem.

(5) **physical vacuum world (nothing and non-nothing the contradictory world).**

(a) **Vacuum Polarization Reaction is established science fact.**

$0 = +a(\text{matter particle}) - a(\text{anti-matter particle})$.

Experimentally and also theoretically, so called **vacuum polarization reaction** (=VP) is officially recognized in the physical society of the world.

(b) **The definition of VP :** $0 \rightarrow \{ (+a) \leftarrow G \rightarrow (-a) \} \rightarrow \{ (+a) \rightarrow G \leftarrow (-a) \} \rightarrow 0 \rightarrow \dots$

At anywhere anytime in a vacuum field, the field could become simultaneously creating **positive elementary particle** and **the pair negative particle** which has symmetric negative physical value (but except energy). Being of the pair particle is called **anti-matter**. Both positive particles' energy are canceled with negative gravity field $one = G$. Thus complete cancellation is done.

(c) **Creating negative is annihilating positive (Simple proof of contradiction of VP).**

Note creating anti-particle is also creating negative physical variable, then note **creating negative physical variable is equivalent to annihilating positive physical variable**.

As the consequence, creating both particle and anti-particle is translated to that **creating particle and annihilating particle simultaneously**.

This is, nothing, but a contradictory statement.

(d) **To tell from common sense, creating something from nothing is entirely non logical = false = contradictory at all.**

(6) **Complex Matter Dipole:** $\ll(Q^+ - Q^-)$ pair of any matter and anti-matter is dipole \gg

Not only elementary particles, but also any **complex matter** can also form dipole. The foundation is being of nucleon dipole (positron, neutron) with 3 quarks (elementary particles = $\langle Q_a^+, Q_b^+, Q_c^+ \rangle$). This fact was proved in general gauge theory (see below fig). Then their any compounds as atoms, molecules, and even a humankind with consciousness, have each dipole. That is, a vacuum world is any possible form of matter one with the symmetric antimatter pair world $\{0 = +M - M\}$. **Ourselves have many ghosts in vacuum world !!!**

<http://www.777true.net/img008-Quick-Guide-to-Quantum-Gravitational-Dynamics.pdf>

<http://www.777true.net/Energy-Creation-Process-from-QED-to-QGD.pdf>

(7) **God (≡ the Almighty Being in supreme chaotic vacuum world):**

Especially note that any possible form (situation, mode, stage) could be possible.

It's just an **almighty world**. In the other word, a vacuum world (**the other world**) is one where anything could be !! (→ Parallel world).

(8) **Mechanism of Prophecy by very merciful assist of the other (almighty) world.**

A prophecy is due to a **communication between this world and the merciful other worlds** (longitudinal charge density wave communication²) with soul in the other world), or a temporal realization of go-back transportation of consciousness of man in this world into the other worlds (**astral projection** → (6)).

<http://www.777true.net/Scientifical-Mechanism-of-Prophecy-by-Paranormalities.pdf>

Note the other world is one where anything are possible, any possible history (past and future) could be. Also note that experimentally, most prophecies do **emergent warning** for this world. People (in this world and the other one) encountering emergency will wish to warn by their merciful mind.

Their high tension mind would search this world men (prophets) who become resonance between their mind.

Summary of [1],[2]-

- (1) Our world is composed from **logical duality**(**affirmative** and **negative**).
- (2) **Contradiction**(error,lie,injustice,..)causes **disorders** in this matter world.
- (3) **Contradictional the other vacuum world** is to cause **almighty** one.
- (4) **Warnings** onto now this chaotic world,**by prophecies**,are due to almighty and merciful **the other world**.
- (5) Therefore,the other world wish lasting of good order in this world.
The Apocalypse tale in the Bible is entirely a warning,but not wish the realization as the last judgement !!.

☞ : Note **established science** will not authorize facts of **miracle** mentioned at here (8). However those has been being affirmed by **many experienced phenomena** in history.

[3] : "The Disorders" at now World(due to **error,lie,injustice,atheism,....**)

We now encountering unprecedented global crisis would be hopeless,unless we shift to drastic actions against status quo(global repentance).

(1) **The Climate Change Crisis(CCC) due to excess doing in material civilization.**

CCC has been caused from outrageous destroying **mother nature on earth**.

The backbone is **hegemonism** in commerce by the international capitalism dominated by few families the hereditary powers.The elites of each nations and peoples has been delusional with corruption in excess **material civilization**.

They will not to face the reality of awful CCC due to **mind of status quo**.

The real enemy is few the hereditary families in the international capitalism.

(2) **Global Food Crisis would be accelerated by CCC.**

(3) **AIDS conspired for hidden global massacre.**

AIDS was invented as biological weapon in Fortdetric base lab in USA.

(4) **Earth quake weapon by USA.**

http://www.777true.net/From-the-9_11-to-the-3_11-Japan-Earthquake-Massacre.pdf

<http://www.777true.net/EARTH-QUAKE-WEAPON-by-USA.pdf>

(5) **the 9/11 own playing terror and lawless invasion wars in middle EAST.**

Once injustice had been neglected and missed in world major opinion, the lawless power would be spread in all over the world at now and future.

(6) **the Bible(Thessalonians).**

<http://www.bibleetnombres.online.fr/biblecom/2thessal.htm>

Proclaiming himself to be the man of **lawlessness, and the son of perdition**; who oppose and exalts himself above all that is called God or is worshiped, he goes to sit on the temple of God, proclaiming himself God. The coming of the **lawless one** will, by the power of Satan, with all kind of miracles, signs and lying wonders, and **all with deception of wickedness** for those who perish because **they recieved not the love of truth and be saved**. Therefore God sends them there **strong delusion**, that they should believe a lie, so that all those who believed not the truth but had pleasure in unrighteousness will be condemned. (2 Thessalonians 2/1-12).

(7) **Chaos in global financial crisis** <<Total debts sum = total monetary assets>>.

Plutocratic power hates **zero sum theorem**, which never allow essential reform.

They should pay "tax" onto nation for co-living of all.

(8) Denying "co-living of all" would cause final judgment to hell.

[4] : God(good) and Satan(damned) the each role of them.			
Following may be essences of Christianity, Islamism, and Buddhism...			
God(good) = almighty being		Satan(bad damned) = those who denied to kneel down to Adam,	
AFFIRMATIVE(≡ 1)		NEGATIVE(≡ 0)	
good, truth, = order		bad, error, deception = disorder	
theism anti-Satan	original sin = repentance = righteousness	Atheism	<u>Unless God were,</u> <u>man could do anything,</u> = bultarity
Justice, truth, equality, devotion,	do good for others ! Moses, Jesus, Muhammad,	supremacism, exploitation, robber, deception,	A man is dividened to those who are ruled and who rule.
	self-devotion		egocentricism
	turning to correct		bulling
order to live life forever		disorder to collapse	

☞ : Our now world is **upside down world facing hell**,so we must turn it.

Therefore,above all,you must survey it false or true at 1st !!!.

A recommended skill to derive better result is to flexibly turn problem the concerned.

APPENDIX_1:Introduction to LOGIC.

Foot note:¹⁾The strict proof on contradiction in propositional logic.

①What is proof !.

A,B are proposition being true(1) or false(0).Then Following conjunction are also proposition. $(A \wedge B) \equiv A$ and B; $(A \vee B) \equiv A$ or B; $\neg A \equiv$ not A; $A \equiv 1$ (**tautology**,self-evident)
 $(A \supset B) \equiv$ if supposing A(cause), results B(conclusion).
 * $(A \supset B) \equiv$ inference acts in **proving**.
 $A = 1$ (**assumption**), $(A \supset B) \equiv 1$ (**proof by tautology**<see③>), $\Rightarrow B = 1$ (**theorem**),
 example)A=prophet is one who is revealed by God the almighty being(**supposition**).
 $(A \supset B) =$ almighty being can predict future(**tautology**,self-evident),
 B=prophet can predict future. $\Rightarrow B =$ true(**proof**).

A \ B	0	1	⇨ : logic table(axiom)on inference(=conditional) . * Inference with conclusion true is always true. * $0 \supset 0 = 1$ (inference lie from lie become true). This could be understand.If not trure,conclusion lie become fail,so it could be true.This is not reasoable. * $(A \supset B) = \neg A \vee B = \neg (A \wedge \neg B)$.
0	$A \supset B = 1$	$A \supset B = 0$	
1	$A \supset B = 1$	$A \supset B = 1$	

②The strict proof on contradiction in propositional logic.

Theorem)supposing $\{\neg A \wedge A = 1\}$, \Rightarrow any arbitrary lawless propositin could $B = 1$.

$\neg A = 1$ and $\neg A \supset (A \supset B) = A \vee (\neg A \vee B) \equiv 1$, $\Rightarrow (A \supset B) = 1$; $A = 1$ and $(A \supset B) = 1 \Rightarrow B = 1$.

⇨ : so called predicated logic(pragmatical one)can be converted to propositional logic in general.See following site(p12/25).

<http://www.777true.net/Firstproblem-USA.pdf>

③Completeness Theorem in Proposition Logic:"A truth is Provable !".

Assumption:if $A = 1$,then $B = 1$.

Proof) $A \supset B \equiv 1$, That is,inference is **tautology** for **probable**.

Or in other word,if $A = 1$,we can not make $B = 0$,

That is $B = A \vee R$,where R is something proposition,then $A = 1, \rightarrow B = (A \vee R) = 1$.

$A \supset B = \neg A \vee B = \neg A \vee (A \vee R) = (\neg A \vee A) \vee R = 1 \vee R \equiv 1$.<proof end>

APPENDIX_2:Longitudinal B wave Communication.

²⁾longitudinal B wave communication.

<http://www.777true.net/BWG.pdf>

Communication of portable phone is due to traversal Electro Magnetic Wave.

While longitudinal B wave is that of scalar one in classical electromagnetic theory.

There are many report on so called **telepathy**.Especially the many are between **twins**.

A strong validity is **resonance hypothesis** between similar hardware of twin's brain.

As is established fact,**biological nerve cells are driven by charge pulse** in dynamic chemistry in cells. Thereby charge density wave could drive also those nerve in brain.

APPENDIX_3:Creation of this Universe the Outline.

3) Creation of this Universe(God created this universe from nothing-AI'Qur'an).

Before Creation of this Universe,it's an eitirely nothing world without physical law restriction.Hence anything could be possible(almighty world !!!).Once matter had been created from the original spot(size=0*),physical law (quantum gravitational dynamics= QGD)began to manage matter world.

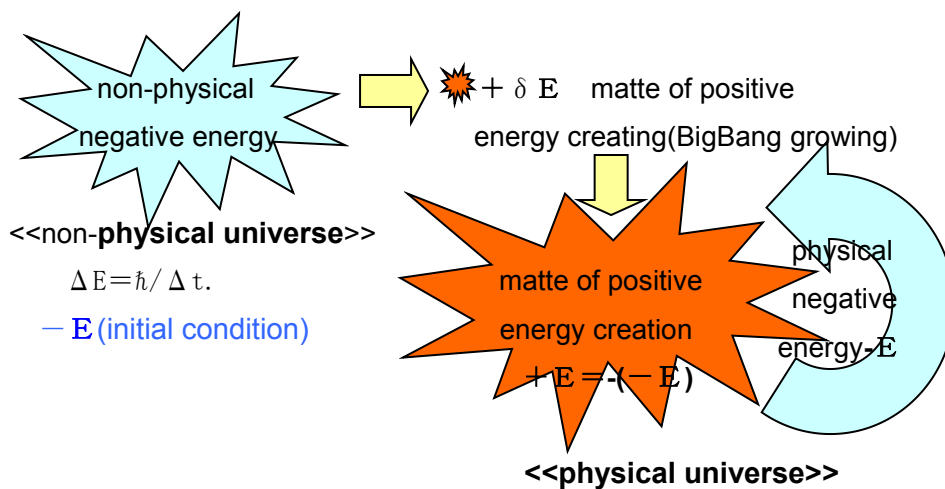

-Energy conservation low in creating uiverse from nothing-
 $0 \text{ (from nothing)} = + E \text{ (matter energy)} - E \text{ (gravity field energy)}$.

It's BigBang initiated by hudge amount of energy fluctuation ΔE in time Δt .
 The 1st step is called $SO(11,1) \rightarrow SO(11)$ phase transition in QGD.

The initial condition was hudge amount of **negative energy** created by God.
 $\Delta E. \Delta t = \hbar$

It was loaded on **non-physical**(non-hermitian)gauge field(imaginary number component in virtual state),which were to vanish to create physical matters(+ E) with physical gravity field of negative energy(- E).

☞: the uncertainty principle allows energy conservation low breaking ΔE within time interval Δt ,which enable creating initial negative energy.If initial energy was physically positive,bigbang is to abort.

As bigbang grew,temperature were to down in phase transition going as
 $SO(11,1) \rightarrow SO(11=\#) \rightarrow SO(10) \rightarrow SU(5) \rightarrow SU(3) \times SU(2) \times U(1)$.

It's bankrupt process of big family corporate into small one in recessions.

(#) is number of family component.Now strong force(3),weak force(2) and electro-magnetic families are ruling.Then note SU(3) is higher than(3+1)dimension.

Those forces enabled creating "life on planet earth with stable sun heat flow".

APPENDIX_4:Introduction to Quantum Mechanics .

QW= ϕ is function of {time= t ,spce= x } and {frequency= $2\pi f$,wave length= $2\pi/\lambda$ }.

$\phi = \exp \cdot i(\omega t - kx)$. . . this is a classical wave expression, then it is transformed to QW.

Plank & De Broglie Quantization Principle $\rightarrow \{ \omega = E/\hbar ; k = p/\hbar \}$ derived experiments.

$\rightarrow \phi = \exp[(Et - px)/i\hbar]$. . this is the most primitive QW which satisfy Schrodinger Equation.

(1) $E\phi = i\hbar(\partial/\partial t)\phi$. ($E = p^2/2m$) free particle kinetic energy.

(2) $p_x\phi = -i\hbar(\partial/\partial x)\phi$ this is called **eigen equation** of momentum.

Above relation indicate important QM relation as $E = i\hbar(\partial/\partial t)$; $p_x = -i\hbar(\partial/\partial x)$.

(3) $E = p^2/2m + V(x) = -\hbar^2(\partial/\partial x)^2/2m + V(x) = \mathbf{H}$ is called **Hamiltonian** with energy E .

(4) due to (1)(2)(3) ,we could derive Schrodinger Equation(1926).

$$i\hbar(\partial/\partial t)\phi = [-\hbar^2((\partial/\partial x)^2 + (\partial/\partial y)^2 + (\partial/\partial z)^2)/2m + V(x, y, z)]\phi .$$

Above equation was first applied to **hydrogen atom** with historical success.

This theory revealed shape of electron distribution around hydrogen atoms.

These are called **Particle Quantum Mechanics** which are main in Quantum Chemistry and Condensed Matter Physics, while wave dynamics theory of Classical Electrodynamics was quantized by method of **Wave Field Quantization**. This theory was to reveal deep insight on **Quantum Vacuum** and so on.
