

**This is the most dangerous zone against which they are eager to fire!!!**

2015/5/13, 14

***BREAKING: Obama Administration Says Yes To Drilling In The Arctic***

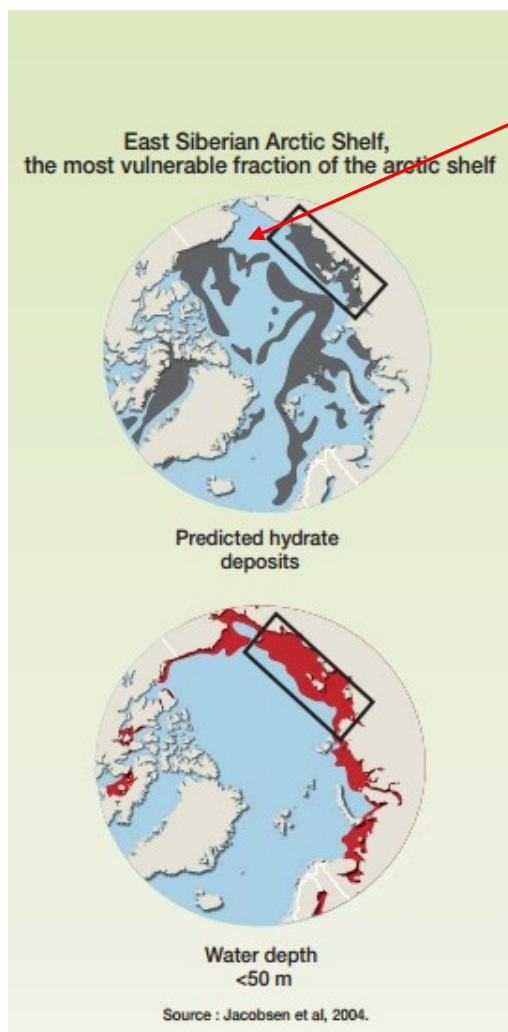

[http://thinkprogress.org/climate/2015/05/11/3657393/obama-conditionally-approves-arctic-drilling/?utm\\_source=newsletter&utm\\_medium=email&utm\\_campaign=tptop3](http://thinkprogress.org/climate/2015/05/11/3657393/obama-conditionally-approves-arctic-drilling/?utm_source=newsletter&utm_medium=email&utm_campaign=tptop3)

Royal Dutch Shell plans to explore for **the Chukchi Sea**, around where are rich with sea floor explosive mine=**methane clathrate** **the final global mass extinction weapon** by **Arctic ocean warming**, or by **sea floor sliding of the reservoir by the drilling..**

Following picture in ***“Arctic Climate Feedbacks: Global Implications”***

[http://www.wwf.se/source.php/1260148/Arctic%20Climate%20Feedbacks\\_%20Global%20Implications\\_2009\\_Executive%20summary.pdf](http://www.wwf.se/source.php/1260148/Arctic%20Climate%20Feedbacks_%20Global%20Implications_2009_Executive%20summary.pdf)

You should not read above long report, but see the picture here in haste.

**the Chukchi Sea is at here !!!!!**

<http://www.worldatlas.com/aatlas/infopage/chukchisea.htm>

**It is suicidal deed to drill there !!!!!!**

It is entirely upside down !!!,

Time for **carbon energy** had passed, but

we must emergently take **action for Arctic**

**Cooling geo engineering** in order to

**intercept Methane Hydrate Bomb Extinction**

by ice lid vanishing in Arctic.

<http://www.ameg.me/>

The ice lid retreat accelerates more heat input

into black ocean which cause more ice lid

retreat<**feedback establishing**, which never be

stopped without manmade cooling technology>

<http://arctic-news.blogspot.jp/p/the-need-for-geo-engineering.html>

**Shell Contact information**

<http://www.shell.com/global/aboutshell/contact-us.html>

<http://www.shell.co.jp/ja/aboutshell/about-our-website/contact-us.html>

Note the permission has been still incomplete at now !!!

It would become an executive order to declare death penalty by gas chamber against mankind by the President ?!. Our possible salvation may be **overwhelming judgement** .....

### **I : the facts recognition at first.**

(1)**Now climate change by manmade CO2 had been approved by 98% scientists,**  
<http://blogs.voanews.com/science-world/2014/04/14/scientist-99-sure-global-climate-change-is-man-made/>

however most of people seems not to know Arctic Emergency<Methane Catastrophe toward mass extinction>.This is the most insidious point,because Arctic is not familiar region for all.

(2)**Historical Fact on Permian 96%mass extinction by Methane Catastrophe.**  
<http://www.nhm.ac.uk/nature-online/life/dinosaurs-other-extinct-creatures/mass-extinctions/end-permian-mass-extinction/>

(3)**Methane Clathrate the Mass Destructive Thermal Bomb in Arctic**  
**(the highest priority problem at now).**

<http://www.realclimate.org/>

People consider so called global warming is gradual process in coming decades and the crisis would be in future.However the fact is not so optimistic.Now many scientists fear for **huge amount of unstable MC=methane clathrate(ice,hydrate)melting in Arctic sea floor** by rising sea temperature **2~3°C**.The estimated amount of Arctic MC is **400~1000G** ton in carbon standard,of which **10 GtC** eruption is catastrophic.MC is more **56(20years→25) times** potent as GHG effect  
[http://unfccc.int/ghg\\_data/items/3825.php](http://unfccc.int/ghg_data/items/3825.php)

than CO2.Once they emitted to atmosphere,temperature rising accelerate that of sea to enhance more emission of methane.It becomes **FEEDBACK process** to spike out temperature rising <**Clathrate Gun Mechanism**> .Abrupt and irreversible Climate Change is to attack on earth. Paleo-climatology recently recognized mass extinction of species by methane burps in **Permian(251.4my)**and **Paleocene–Eocene Thermal Maximum(55.8my=million years ago)**. The final stage may be fire hell.

## II : Possible Countermeasure as Mending Deadly Planet.

(1) emergent 80%CO<sub>2</sub> cut=**popularizing NEW ENERGY**

[http://www.777true.net/Part\\_6\\_non-carbon-Energy-Engineering.pdf](http://www.777true.net/Part_6_non-carbon-Energy-Engineering.pdf)

(2) emergent Arctic Cooling Fixing

<http://www.ameg.me/>

<http://arctic-news.blogspot.jp/p/the-need-for-geo-engineering.html>

<http://www.777true.net/How-to-Make-Clouds-for-Intercept-solar-heat-in-Arctic.pdf>

(3) **Global Climate War-Time Regime=How to make our life in Climate War.**

<http://www.777true.net/Life-Assurance-by-National-Strategy-in-coming-climate-WAR-TIME.pdf>

## III: The oil money should be paid for mending deadly planet.

### The military budget should be paid for mending deadly planet.

To tell hiding reality, it is the **oil and military industry that are most desperate ones.**

<http://www.777true.net/Oil-and-Military-the-Deathperate-Industry-has-been-causing-the-world-desperate.pdf>

(a) Everyone know oil nations are rich enough. However it is oil that has been causing climate crisis toward global extinction. While it is also them who has been hiding the decisive facts. It is so called upside down world, which must be emergently tuned to righteous way. Then it is also they who could devote climate fixing by their rich wealth.

<http://www.mapsofworld.com/world-top-ten/world-top-ten-oil-reserves-countries-map.html>

<http://www.indexmundi.com/energy.aspx>

<http://www.eia.gov/dnav/pet/hist/LeafHandler.ashx?n=PET&s=RCLC1&f=D>

**World Oil Spending in 2012  $\doteq 80\$/\text{bri} \times 900000 \times 1000\text{bri}/\text{day} \times 365\text{day} = 26\text{trillion}\$!!!$**

(b) Also note military industry are enough big business to destruct the world by their products.

It is also those who should be called upside down world. In fact, if the world is peace, their budget are entirely waste, while not in peace, their results are destructing the world.

<http://www.globalissues.org/article/75/world-military-spending#WorldMilitarySpending>

**World Military Spending in 2012 = 1.7trillion\$!!!**

(c) *Save the Arctic sea ice while we still can!*

2015/03/06

<http://arctic-news.blogspot.jp/2015/03/save-the-arctic-sea-ice-while-we-still-can.html>

*Fortunately researchers are increasingly confident that a stratospheric aerosol haze, produced from sulphur dioxide, SO<sub>2</sub>, could provide significant cooling of the Arctic for modest expenditure of the order of a few billion dollars per year.*

*This type of cooling could be replaced by cloud brightening using ultra-fine seawater droplets when the technology is ready for large-scale deployment within a year or two.*
